Needfinding

1. Needs a way to send updates on progress added.

2. Needs to be able to graph results in a user friendly manner.

3. Needs a way to log past results for easy access.

4. Needs to be able to display icons that represent categories.

5. Needs a way to place priority at the top of the app.

6. Needs to be able to do simple calculations in math and statistics.

7. Needs a way to set goals that are reachable and easy to spot.

8. Needs to be able to connect to outside sources for reference.

9. Needs a way to interact with the finger or mouse to fill a "glass of water" virtually.

10. Needs to be able to communicate with a community through some kind of forum.
